

Floor Stand Insect Light Trap System (Model FS-218)

Designed specifically for locations where wall mounted or suspended insect light traps are unsuitable, especially those with special interior decors and fittings.

Since it is not fixed onto the wall or ceiling, it can be moved anywhere within the premise to maximize its usage where it is needed most.

Unit is fully powder-coated (custom-coated color available) for color-durability, low height (maximum height 95.5 cm/37.5 inches) with extra large sticky pad and 2 bright energy-saving blacklight tubes of 18 watts each.

Comes with mirror finished inner reflector and back-plates reflectors for a much brighter and bigger UV aura.

Specifications:

- 2 X 18 watts blacklight straight tubes
- Mirror-finished reflectors inside lamp body for higher reflected UV aura.
- Huge sticky pad size – 260mm (B) x 520 mm (L)
- Pheromone (Muscalure) added into sticky pads' adhesive to enhance attraction for flies
- Strong adhesive that 'grabs' insects
- Transparent sticky pads with mirror-finished backing reflector that insects will literally fly straight into.
- Add on mirror-finished side-reflector plates for additional UV reflection, especially when suspended from ceiling.
- Operates from 220/240 v, power outlets.
- Range: 70 meter square
- Net weight: 3.0 kg, Height: 95.5 cm (with stand), width: 23.5 cm, Depth: 12.5 cm
- Comes with 2 m electrical cord with 3 pin plug.

Applications: Hospitality industry, supermarkets, fast-foods outlets, hospitals, public buildings, bakeries and in homes.
