

DYNA-FOG®

Mister III™ Electric Start

Dispenses wettable powders, emulsifiable concentrates and flowables with a non-flammable carrier at a rate of 12 gallons per hour.

PATENTED ELECTRIC STARTING SYSTEM
ELIMINATES HAND PUMPING.

MISTER III™ ELECTRIC START

Mister III™ has the versatility to dispense fungicides, insecticides, germicides and disinfectants as; wettable powders, emulsifiable concentrates, flowables or liquids in a variety of applications: greenhouses, warehouses, food processing plants, swine/poultry houses and much more.

With a formulation output of 12 gallons per hour, Mister III™ has power enough to produce small particles and effectively disperse them evenly over large areas for fast, economical and total coverage.

The machine is equipped with an easy to clean stainless steel formulation filter that keeps the system free of unwanted dirt and residue...yet has large enough openings in the filter to enable use of wettable powders and flowables.

Mister III™ also features Dyna-Fog®'s patented electric starting system to assure greater reliability, effectiveness and ease of operation.

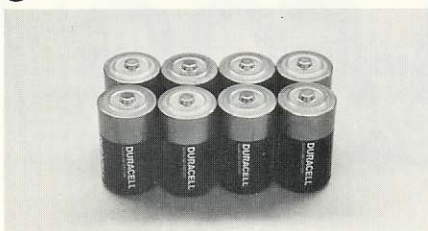

MISTER III™ gives you easy, reliable starts. Fast, economical and total coverage.
