Biological MOSQUITO CONTROL SOLUTION

SAFE & NONTOXIC way to control mosquitoes
For use in all types of breeding areas

Made in USA

Summit
... responsible solutions.

MOSQUITO DUNKS

Mosquito Dunks is a floating sustained-release larvicide. It can effectively kills Mosquito Larvae, Blackflies Larvae, and Midges Larvae in an environmental friendly way with the longest lasting period.

- Made by 7,000 ITU Bti Strains (Highest Bti Strains)
- Last for 30-45 days.
- Safe for Humans, Animals, Fishes, and Pets.
- Registered by Environmental Protection Agency (USA)
- Manufactured in United States.
- Kills Mosquito Larvae in 4-24 hours.

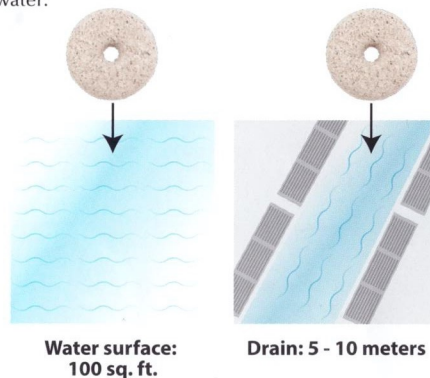

Registration no.: LRMP. R1/9843

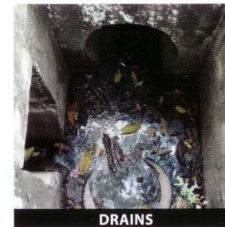

Directions For Use

Mosquito Dunks can be applied into any clogged water areas except treated, finished drinking water reservoirs or drinking water receptacles.

1. Use one (1) Mosquito Dunks for up to 100 square feet of water surface, regardless of depth. Break Mosquito Dunks into smaller pieces for the usage in smaller surface area of standing water.
2. Use one (1) Mosquito Dunks in 5 -10 meters of drains and roof gutters.
3. Increase dosage when water is heavily polluted or when larva population in water is high.
4. To prevent the Dunks from being washed away by flowing water, anchor it using a string tied through the centre hole, or tied it with a nylon net.
5. Repeat application in every 30 - 45 days.

Apply Mosquito Dunks in: Rain Barrel, Tree Holes, Unused Water Tanks,

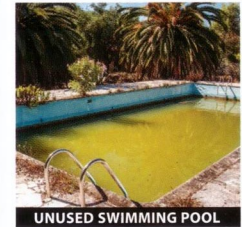

DRAINS

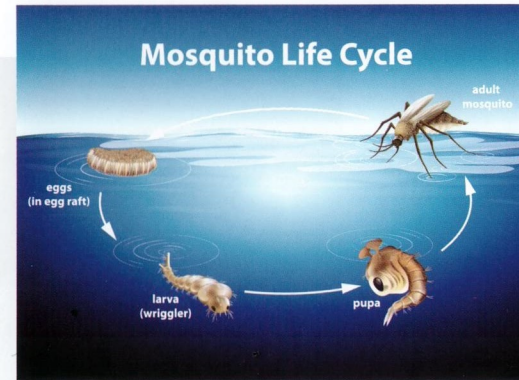

ROOF GUTTERS

WATER GARDENS

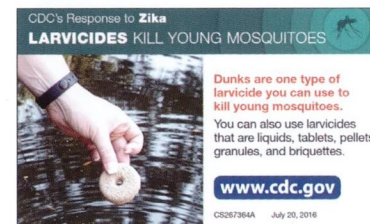

UNUSED SWIMMING POOL

Effectively kill mosquitoes in second stage

Recommended by
Centers for Disease Control and Prevention.

MOSQUITO BTI

Mosquito Bti is a biological mosquito larvicide in granules form. It is suitable for mosquito larvae control covering smaller and fined stagnant water areas.

- Can be easily applied
- Safe for Humans, Animals, Fishes, and Pets
- Kills Mosquito, Blackflies, and Midges larvae in 4-24 hours
- Fast acting & Effective
- Last for up to 14 days
- Environmental Protection Agency registered (EPA, USA)
- Manufactured in USA

Registration no.: LRMP. R1/9842

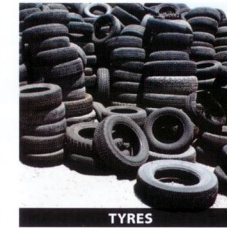

Apply Mosquito Bti in:

Drains, Water ponds, old tyres, Flower pots, Vase, Flower plates, roadside ditches, construction sites.

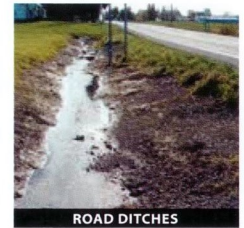

VASE

TYRES

FLOWERPOT PLATES

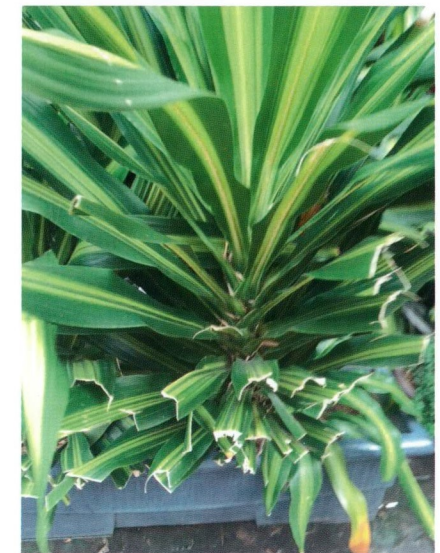

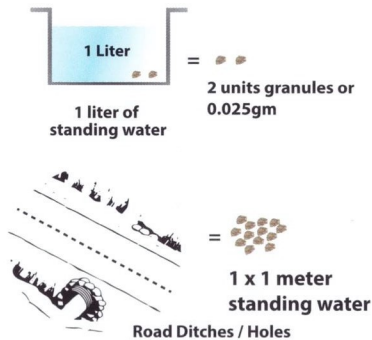

ROAD DITCHES

Directions For Use

Mosquito Bti can be applied into any clogged water areas except treated, finished drinking water reservoirs or drinking water receptacles.

1. Apply 0.010-0.025 gm of Mosquito Bti to treat 1 liter of clear standing water (Flower pots, Vase, Tyres piles, Flower plates)
2. Apply 1.4 gm of Mosquito Bti per 1 square meter of surface for storm water, road ditches, or more areas where standing water accumulate.
3. Increase dosage when water is heavily polluted or when larva population in water is high.
4. Repeat application in every 1-2 weeks

MOSQUITO BTI LIQUID

A Bti product in Liquid. Mosquito Bti liquid is made from the natural Bti strain which able to kill Mosquito Larvae, Blackflies Larvae, and Midges Larvae in standing water.

- Concentrated Bti Solution
- Kills Mosquito Larvae in 4-24 hours
- Safe for Humans, Animals, Fishes, and Pets
- Effective
- Last for 7-9 days
- Environmental Protection Agency registered (USA)
- Manufactured in USA

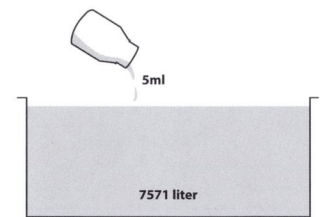

Directions For Use

Mosquito Bti Liquid may be applied to any water sites except treated, finished drinking water reservoirs or drinking water receptacles.

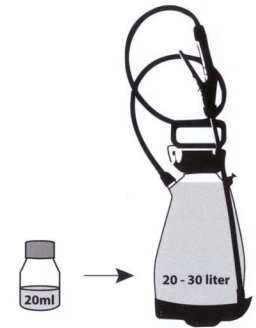

1. Apply directly into standing water:

- Apply directly into standing water, pools. Each 5ml of Mosquito Bti Liquid is able to treat in 7571 liters of water.
- Repeat application in every 7-10 days.

2. Apply by using air pump water sprayer:

- Use air pump sprayer to apply Bti onto Mosquito breeding sites to kill the Mosquito Larvae directly.
- Drains, Green plants, roof gutter, construction sites and more areas where standing water accumulates.
- Mix 20ml of Mosquito Bti Liquid with 20-30 liters of water, stir well and spray it onto the Mosquito Breeding sites.
- Repeat application in every 7-10 days.

Mosquito Bti Liquid can be applied at:

Flood Water, Roadside ditches, Drains, Construction sites, Water gardens, unused swimming pools, Green plants
